## ABOUT THE TORONTO BOTANICAL GARDEN

The Toronto Botanical Garden (TBG) is a volunteer-based, charitable organization whose purpose is to inspire passion, respect and understanding of gardening, horticulture, the natural landscape and a healthy environment. The TBG raises over 90 per cent of its operating funds through membership, facility rentals, retail enterprises, program fees and donations. The organization relies on the generosity and financial commitment of individuals, foundations and corporations to help maintain the gardens and support the many horticultural and environmental services we provide to our community.
